

Intelliprint 9035 Range

The most powerful tool in your office.

Its Fast

400 Mhz processor speed, the fastest in its class combined with TallyGenicom's market leading Intelliprint controller technology, make the 9035 the most impressive workgroup printer available today. Enough memory as standard to handle any print job, combined with fast 9 seconds first page print time, make the 9035 the ideal printer for heavy workload applications where short print time is critical.

Productive Power

Capable of 150,000 pages per month the 9035 is built to last and at 35 pages per minute will more than meet the demands of a busy office. To cope with all this workload the 9035 can be configured with an impressive list of paper handling features including multiple bins and duplex capability makes it a true workhorse.

Intelligent Migration

Legacy Data – no problem. Intellifilter resident within the 9035 enables true migration from other technologies such as a line printer or even SIDM (Serial Impact Dot Matrix). All this without expensive server software lets TallyGenicom solve all your printing problems.

Secure Printing

Add a disc drive and secure printing is enabled, just input a PIN code in the printer and collect your output. In addition Job Accounting, a Job Library, Collation and the ability to store forms, fonts and logo's etc. become possible with the Hard Disc option.
